

TEAM WORKSHEET FOR DEVELOPING CORE VALUES

The leadership team is in the process of defining our core values and would like your feedback.

Description of Core Values

Core values are words or statements that define how a company will conduct business. Companies may refer to their core values as “our beliefs”, “our promise”, “our commitments”, “our principles” or “standards”. A core value can be one word or a phrase. Our core values will encompass those values that define how all team members of the practice will interact with each other, pets, clients, and the community.

Your Assignment

Please submit 3-5 core values for consideration. This is a brainstorming exercise so feel free to submit one word, a phrase and/or examples of what we do that represents our core values.

Your participation is greatly appreciated. Everyone’s feedback will be collated and help us draft our final core values.

The deadline for this assignment: _____
